Features You May Not Be Aware Of

Many extras lie hidden within TerraPro. Most are context-aware, meaning that they don't show up until you are in the midst of doing a related task.

Built-in Arrangements Conference

By adding pictures of caskets and other merchandise, TerraPro can be used on a large screen monitor or taken to the family to make arrangements on site, rather than carrying around the casket selection books or other bulky materials.

Your families can make selections based on price, color, and materials. You can show off video tributes created for other families.

The Twenty-Third Psalm

The Lord is my shepherd; I shall not want. He makeh me to ife down in green pastures. He leadeth me beside the still waters. He restoreth my soul: He leadeth me in the paths of rightecounsess for His namé's sake. Yea, though I walk through the valley of the shadow of death, I will fear no evil: for Thou at with me Thou preparest a table before me in the presence of mine enemies:

How We Do It

USING TERRAPRO THE "RIGHT" WAY

Three Things that Make Terrapro Hum:

1. Use the tool tips

- – pass your mouse over any item on the screen and help will appear.
- - right-click a menu choice to read the manual about that function.

2. Remember that survivors are identified by two letter codes:

- DA = Daughter
- SO = Son
- ETC.

Each survivor has only one record in the system. They may have multiple duties, such as informant, person responsible for payment, flag recipient, etc. These are indicated from the OTHER RELATIONSHIPS box to the right of the MAIN RELATION box.

3. Right Click Pull-down Lists to Edit Them.

Assigning Duties to Survivors

Your family members and other survivors may play several roles.

TerraPro makes it easy to assign multiple roles to each survivor:

In this case, Georgia Foolery is the Spouse of Robert David Probos. (SP)

She is also the Informant (IN), the Person Responsible (PR), the Cremains Recipient (CR), and the Flag Recipient (FL)

Many times, a simple phone call to check on a survivors can make the difference between another bad day and the possibility that someone shares their grief.

By helping you keep track of those calls, TerraPro's Post Service Followup area makes sure no one is forgotten.

It also can help build your prearrangement clientele.

Texting? GMAB!

In today's fast-paced world, it seems like everyone is in a hurry to get as much information as quickly as possible.

Many of us shun this world, for good reason! But more and more, texting seems to be a way to contact people when other methods fail.

If your informant provides you with a cell phone number, you can send text messages to make sure they have important information they need.

More and more, people prefer this method of keeping in touch.
